By creating an account, you agree to the [Terms of Service](#). For more information about GitHub's privacy practices, see the [GitHub Privacy Statement](#). We'll occasionally send you account-related emails.

Step 2: Create a Git Repository

1. Click on the **New Repository** button

2. Enter your **Enrollment Number** as the repository name.
3. Choose **Public** or **Private**, depending on requirements.

4. Click **Create Repository**.

Step 3: Create Folders for Assignments

1. Open the repository folder.
2. Click on create new file
3. Type '**Assignment_1/**' in textbox

4. Click on ‘commit changes’

5. Repeat process for ‘Assignment_2’, ‘Assignment_3’.
